ABOUT ME

Even though I do not have any real-life experience in web development, I like to dive into new challenges while creating user-friendly websites and constantly expanding my skills and knowledge in the field.

INTERESTS

Automobiles, Travel, Games, Music.

EMPLOYMENT HISTORY

Self Made Projects

Date: 2023.05 - present

Main Activities: After finishing my courses I started working on personal projects. The largest project I created was responsive shopping website using techs like React JS, Tailwind CSS and Firebase. You can check it at my portfolio website where you can also find or projects

Acquired skills: During creation of shop project I learned a lot of new JS & React functionalities. Later I finished crash-courses for TypeScript, Node.JS, Next.Js and applied newly acquired skills in my portfolio website
